<b>GRAND TOTAL</b>				<b>\$</b> _____

## Ordering

The city's 11<sup>th</sup> annual tree and shrub sale offers you an opportunity to celebrate Arbor Day. Consider diversifying the species in your yard now that emerald ash borer has been found in Lakeville.

- There are new species being offered again this year. Most trees are bare root at pick up; these are light weight and easy to transport.
- Not sure it's worth buying a "smaller" tree instead of hiring a contractor to install a larger tree? Consider that for every inch in stem diameter, the tree will go through a year of transplant shock where it will only grow roots. Smaller diameter trees establish root systems and start growing taller/wider faster. In many cases because of their exceptional root systems, bare root trees can outgrow their "larger" tree counterparts simply due to the number of roots present at planting time and their ability to establish.
- All trees/shrubs reflect a savings off typical retail prices.
- Purchasers will be notified by mail confirming which trees and shrubs are reserved for them.
- No room in your yard? *You may also purchase a Kentucky coffeetree or swamp white oak and donate it to a City Park.*
- **Unlike a retail nursery, these trees/shrubs do not have a warranty.**
- Written planting instructions will be provided.
- Call Gopher State One Call two full business days before you dig to get underground utilities marked: 651-454-0002.
- At this time, the City does not limit quantities of trees/shrubs sold per person and neighboring communities may participate in the program.
- Townhome associations are encouraged to participate to improve their species diversity
- Quantities offered for sale are limited and based on nursery availability. The City reserves the right to limit tree species selections to ensure the program is available to many residents.

## You're Invited - Earth Day Celebration

- After you pick-up your tree(s), plan to attend the City's Earth Day Event from 11am-1pm at the Central Maintenance Facility. *Visit the Forestry booth for free shrub seedlings donated by Dakota Electric in honor Arbor Day, and learn some "insider tips" from the City Forester on trees and how to handle emerald ash borer.*
- For more information about the Arbor Day Tree and Shrub sale, contact the City Forester at 952-985-2724
